NOW IS THE TIME TO BUILD.

A dealer in lumber and other building materials informs the Standard that prices are going higher.
 Instead of the cost of building dropping, ascending prices may be looked for. If that be true, why delay construction work?
 High prices will be with us for years, if calamity in the industrial world does not occur, and those who plan investments calling for building operations, should not postpone action in any expectation of lower costs of building materials.

WHEN THE PEOPLE REBEL.

Tammany, so we are told, is losing power in New York. But Tammany is of the feline family and has nine lives. At least half a dozen times Tammany has been discredited, only to bound back with increased vitality. Still there is evidence that, under the leadership of Chas. F. Murphy, the political organization is failing to retain its old-time prestige. The New York World, strongly Democratic, reviewing the results of the last election, says:

Although Joseph E. Newburger had been a lifelong Democrat with nearly thirty years of honorable and faithful service on the bench, Murphy refused to renominate him because he wanted the place for the youthful son of Samuel Untermyer. What the people of Manhattan and the Bronx thought of this arrogant invasion of the judiciary by the Boss of Tammany Hall can be read in the election returns.

Justice Newburger is triumphantly elected and young Mr. Untermyer is decisively defeated. Because of the Untermyer handicap, Justice Luce, who deserved election, was also beaten.

The enormous Socialist vote that was cast can fairly be added to the Republican and independent vote as a measure of Tammany's rapidly waning power in its ancient stronghold. Most of this vote used to belong to Tammany. It has drifted away as a result of Murphy methods, and it now represents a growing element of discontent in the community which menaces the stability of both of the parties. Many men and women in New York who have no particular sympathy with Socialism itself are coming to vote the Socialist ticket by way of protest against the methods of the Tammany and Republican machines, and the vote polled by Oneal is another eloquent example.

GOING BACK ONE YEAR.

Tomorrow is Armistice Day and our thoughts once more turn to the great war and we ask, What was the part played by the Americans in the mighty battles which were coming to a close at this time last year?

The Standard put this question to an artillery officer:
 What was the outstanding feature of the American invasion of Europe?

"Well," he said, "the one big thing was the restoring of confidence to the French and British troops. When we began to arrive, the hope of victory almost had disappeared from the allied forces. Then came the American engineers with their tremendous energy and foresight. They built beyond all dreams of the French. Finally Chateau Thierry electrified France. When we were going up to the front, to the relief of the Second division, French officers fell upon us and wept with joy, exclaiming, 'France is saved.' Then the blow at St. Mihiel proved the Americans could maneuver for themselves. My eight-inch guns—howitzers—opened at 1 a. m. and the bombardment was intense. Our infantry went over at dawn. The Germans were so demoralized that thousands surrendered without any attempt at resistance. This triumph proved to Marshal Foch that he had available a mighty army of the best fighting material, and the whole aspect of the war suddenly changed."

"Would you class Pershing with the great generals?" was the next question directed at this officer and he said:

"Yes, Pershing was most capable. He had great weight in the war council and he is the man who led Foch away from the idea that the Hindenburg line could not be broken and the conflict brought to a close in 1918."

This is one of the most important statements made since the close of the war. When the Germans were making their last terrific drive which carried them across the Aisne and down to the Marne, General Pershing was consulted. What took place at general headquarters has not been made public, but, enlarging on the declaration of the officer who was in conversation with a Standard reporter, it is certain that Pershing kept alive faith, in the attacks that were to come, by insisting on preparations for an offensive which was to hurl back the enemy, break down German morale and compel a suing for terms of peace.

We often have said that the real story of the war is yet to be told. Many of the decisions which determined the line of action leading to victory may not be disclosed until the history of the war is given out from the headquarters of the opposing armies.

Weber Stake Mutuals Secure Full Quota For the Red Cross

It was announced by President David Wilson, of the Weber Stake Mutual Improvement association, that the full membership quota for the stake will be secured. There are some wards that have not reached their quotas, but these are expected to report full memberships before the fifteenth of the month, in which case the association will go over the top.
 The wards that have secured their quota are Kaneville, Uintah and the Young Ladies of the Fifth wards. A large number of the people who have signed membership cards have so far failed to attend the weekly meetings of the organizations, but in spite of this fact the attendance at the weekly meetings is the largest in years. Many wards have an attendance of over 200 members each week.
 Letters have been sent to the ward bishops by the stake authorities calling for missionaries to work in the various wards of the stake in the interests of the membership and attendance campaign.
 The officers of the organizations are anxious that the meetings be largely

Interurban and Street Car Systems Are To Be Separated

A movement to separate city street car systems of Ogden and Logan and the electric line to Ogden valley and the suburban lines of Ogden from the Utah-Idaho Central railway is indicated in the calling of a special meeting of the stockholders, to be held on November 25. The call was issued by Royal Eccles, secretary of the board of directors of the Interstate line.
 The notice says the meeting will consider the sale of the city and suburban lines to the Utah Rapid Transit company, incorporated under the laws of Delaware, this plan having been approved by the board of directors.
 The proposed sale involves nearly twenty miles of street car line in Ogden, two and one-quarter miles in Logan and thirteen miles of the line to Huntsville.
 Although under contemplation for some time, no action on the divorce

BEET GROWERS WILL RECEIVE MILLIONS FOR BEET CROPS

Beet growers of Utah, Idaho and Washington are to receive in the neighborhood of six millions of dollars for their beet crops this season, as the first payment for beet deliveries this season. This is the estimate made by the eight sugar companies whose headquarters are in Ogden, Salt Lake and Layton. This will be about 50 per cent of the season's disbursements.
 The totals are looked upon as being quite satisfactory in view of the heavy losses which resulted from the drought. While the figures are not absolute, they indicate that the total tonnage of the eight companies will come close to 1,400,000, which at \$10 per ton amounts to \$14,000,000, to be received by the farmers on the two beet pay days on the beet crop alone.
 The Amalgamated Sugar company of Ogden will pay for approximately 250,000 tons in Weber, Cache and Box Elder counties and in the Idaho districts, a total of eight plants.
 Amalgamated Sugar company.....\$2,500,000
 Delta Sugar company.....250,000
 Layton Sugar company.....250,000
 West Cache Sugar company.....300,000
 People's Sugar company.....175,000
 Gunnison Valley Sugar company.....50,000
 Beet Growers' company.....50,000

Total.....\$6,732,500
 The Utah-Idaho Sugar company's total will amount to \$3,157,500, distributed to farmers in the districts as named below:
 Shelley, Idaho.....\$2,000
 Lehi.....3,500
 Garland.....\$51,000
 Idaho Falls.....191,500
 Sugar City.....130,000
 Blackfoot.....424,500
 Elsinore.....250,000
 Payson.....175,000
 Spanish Fork.....243,000
 West Jordan.....400,000
 Washington.....27,000

Total for eleven plants, \$3,157,500
 The payment will be made for all beets delivered to the various factories up to the night of October 31. On December 15, another sum, approximately the same amount, possibly a little more, will be sent out to the farmers for November delivery.

In addition to the tremendous sum to be paid out in the various districts by the eight sugar companies, all the factories will have pay days about the 10th, disbursing the largest sums in their history to their employees. This total, it is estimated, will not be far from \$250,000.

One other sugar plant is about to be added to Utah's list, that being erected by the Pingree interests at Hooper. Figures of beets grown there and of the amount to be distributed were not obtained yesterday.

According to reports from the sugar beet districts between 75 and 80 per cent of the beets had been taken from the ground before the advent of the last snowstorm. Although many of these beets have not been delivered to the sugar companies there is no question as to their being delivered. There is some apprehension, however, as to the beets that still remain in the ground and were covered by snow.

KEEP LOOKING YOUNG It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sorrowful complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.
 Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.
 Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.
 Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

of the street railways from the interurban lines had been taken until a recent meeting of the board of directors. It was stated last night by W. H. Wattis of the railroad board that the company has come to the conclusion that the street railroad and interurban can be operated to more advantage as separate systems. However, he said, they will both remain under virtually the same management.

EXHIBITION DRILL ALLEGED MURDERERS TO BE STAGED AT BALL

Everything is favorable for staging the exhibition drill by ex-navy men at the Berthana tomorrow night, during the intermission of the big Armistice day ball. With over twenty men signing their intention of participating in the evolutions, arrangements have been made for a practice drill at the armory tonight at 7:30, just to rehearse the evolutions and guarantee a good, fast sea-going presentation.

Chief Water tender Pugh, in charge of the navy recruiting station here, who is assisting the Armistice day committee to make the celebration a success, in any way he can, will have charge of the team and, with the wide experience he has had in the navy, can guarantee something in the way of a drill that will make the Ogden people sit up and take notice.

It is requested that any other men who are willing to take part in the drill leave their names with the chief this afternoon, or report at the armory this evening. The drill there will be short, as it is thought memory of the different evolutions are still fresh enough in the minds of the men to require but little rehearsal. If there are not enough men to make a creditable showing, those who do report are assured they will not be called upon to present the drill, as the navy has the reputation of doing things right, or not doing them at all.

Those reporting are requested to bring their blues, white hats, leggings and neckerchiefs. This will be the uniform of the day. Arrangements will be made for leaving these articles in the armory, safely stored away. Other plans will be discussed at the drill. Belts and guns will be supplied.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid, Just What You Need. Is Not Greasy
 Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00.
 Zemo generally removes pimples, blackheads, blotches, eczema and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

any, this year.
 Briggs had exhibited a roll of money in a rooming house operated by Mrs. Linker earlier in the night, another man had accompanied him. It was testified at the preliminary hearing. Mrs. Linker had told Linker and Brooks to go and get the money.
 The police arrested the defendants shortly after the death of Briggs, but were released for lack of evidence. Sheriff John S. Corless arrested them after additional evidence had been procured.

Call on J. J. Brummitt at 2417 Hudson avenue, if you want to sell your Liberty bonds. Phone 59.

NOTICE

To the members of the First Baptist Church of Ogden, Utah:
 You are hereby notified that at the First Baptist church of Ogden City, Weber county, state of Utah, on the 12th day of November, 1919, at seven-thirty o'clock p. m. of said day, there will be held a meeting of the members of said church for the purpose of considering and acting upon the proposition to form said church into a corporation, not for pecuniary profit, under the laws of the state of Utah.
 The foregoing meeting was called by the board of trustees.
 Dated this 27th day of Oct., A. D. 1919.
 H. N. KILLINGSWORTH, Chairman of the Board of Trustees. 465

Good Home-Made Bread and Pastry
